CAREER GOAL

I'm a life-long learner, keeping up-to-date with the latest web technologies and industry trends. I am seeking a role where, through impactful work, I can apply and improve my skills in order to climb the career ladder as a Software Engineer.

OCCUPATION

Industry	Occupation
Software Development (1 year 7 months)	Angular Frontend
Software Development (1 year)	Mendix Fullstack
Software Development (3 year 7 months)	Ruby on Rails Frontend

CORE SKILLS

• Programming Languages:
- JavaScript, HTML5, CSS3, Ruby, C++, C#
• Frameworks:
- Angular, React, Ruby on Rails, Bootstrap, Mendix,
Flutter (basic), Redux, RxJS, NgRx
• Databases:
- PostgreSQL, MySQL
• Version Control:
- Git, ES6, Webpack
• Tools:
- VSC, Sublime text, Postman, Azure, Jenkins

PROFESSIONAL ATTRIBUTES

• I'm highly Adaptable and a Fast Learner
• I'm capable of handling stressful situations
• I'm very Resilient
• I'm Disciplined and Organized

WORK HISTORY

ANGULAR DEVELOPER | Mar2023 to Oct2023
Behamics
- Solid understanding of web application architecture, design patterns, and best practices.
- Experience in building responsive and mobile-friendly user interfaces to enhance user experience.
- Working in different projects and applications for customers and handling their requests on design change
- Developed and maintained web applications using Angular, HTML5, CSS3, and JavaScript.
- Collaborated with the backend team to integrate APIs and ensure smooth data flow between frontend and backend systems.

SOFTWARE DEVELOPER | Feb2022 to Mar2023
TRUDO

PROJECT 1 - Mendix Developer
- Developed and enhanced Mendix applications based on business requirements and feedback.
- Collaborated with the project team to plan and execute application deployments and updates.
- Technical mentor to junior developers, assisting them in understanding Mendix development principles and best practices.
- Regular meetings with the customer to speak for the next steps on each application we developed

PROJECT 2 - Angular Developer
- Switching to Angular project but still managing the engineers whenever needed for Mendix projects
- Developed and maintained web applications using Angular and Javascript
- Working with the customer to support their requirements

PROJECT 3 - Angular Developer – Festival App
- Worked on the development of a festival app for Sunny Hill, Prishtina, catering to event-goers' needs.
- Played a crucial role in providing technical support during the festival, troubleshooting and resolving app-related issues in real-time to ensure a smooth user experience.
- Collaborated closely with festival organizers and users to enhance the app's functionality and overall user satisfaction.

PROJECT 4 – Ionic/Angular Developer – Military
- Contributed to a critical government initiative aimed at optimizing food distribution and reducing wastage within military cantonments.
- Led the development of a mobile application using Angular and Ionic.
- Collaborated closely with government authorities to understand their unique requirements and ensured seamless implementation. The project stemmed from a pressing issue of excessive food wastage within military facilities, prompting the government to seek an innovative solution.

FREELANCE SHOPIFY PROJECT | Jan2022 to May 2022
During a 5-month freelance engagement with Shopify, I had the
opportunity to work with cutting-edge e-commerce technologies. During
this project I worked with:

- Liquid: A flexible and expressive templating language for customizing
themes.
- HTML, CSS, and JavaScript: Core technologies for front-end
development and customization.
- Ruby on Rails: Powering the back end of the Shopify platform.
- Shopify API: Used for integration, app development, and data
manipulation.

RUBY ON RAILS and MENDIX | Sep2019 to Mar2023
MOZAIX LLC

PROJECT 1 - RoR Developer
- Collaborate with other teams to design, develop, and maintain Ruby on
Rails applications for various clients.
- Perform code reviews to provide constructive feedback and maintain
codebase consistency.
- Contributed to the continuous improvement of development processes and
coding standards.

PROJECT 2 - Mendix Developer

- At Mozaix, I was part of a dynamic team engaged in a Mendix project
focused on optimizing employee management processes.
- My role involved crafting solutions to oversee job assignments, track
employee performance, and streamline various automation processes.
- This experience has been instrumental in sharpening my expertise in
software development and contributing to organizational efficiency through
technology-driven solutions.

EDUCATION

June 2022
University of Mitrovica "Isa Boletini"
Engineering Informatics

May 2017
Gymnasium "Xhavit Ahmeti"
Natural Science Gymnasium

May 2015
Primary School "Selami Hallaqi"
Primary School

LANGUAGES

- English – Fluent
- Albanian – Native Level

HOBBIES & INTERESTS

I love sports and outdoor activities. Football, Basketball, Biking and Swimming are my favourites and I indulge myself regularly in them.
